This is the WILD symbol and substitutes for all symbols except for BONUS and MONEY symbols. The WILD symbol appears on all reels.

This is the BONUS symbol. It appears on reels 2, 3 and 4.

MONEY SYMBOLS

These are the MONEY symbols. They appear on all reels.
Each spin, the MONEY symbols take a random value from a pre-defined set.

There are 4 types of MONEY symbols:

MONEY symbol with money value - It shows a random money amount based on current bet. Possible values are: 1x, 1.25x, 2x, 2.5x, 3.75x, 5x, 6.25x, 7.5x, 10x, 12.5x, 25x, 40x, 50x, 75x, 100x, 125x, 200x or 250x total bet.

WILD MONEY symbol - A random money amount is revealed at the end of the respin feature. In the base game it also functions as a WILD and substitutes for symbols except BONUS and MONEY symbols.

MYSTERY MONEY symbol - A random money amount is revealed on it at the end of the respin feature.

JACKPOT MONEY symbol - Can appear only during the respin feature. When it hits it awards one point towards winning the jackpot bonus game and a random money amount is revealed on it.

Hitting any 5 MONEY symbols at the end of a spin triggers the MONEY RESPIN round.
If 3 MONEY symbols of any type hit on the middle reel in the base game the size of the game area increases from 3x5 to 4x5 or 5x5 randomly for the current spin and subsequent round if triggered, thus increasing the number of paylines and possible number of MONEY symbols in respin.

AMAZING MONEY MACHINE FEATURE

A visual machine is present in the game, next to the reels.
Randomly during the base game and respin feature, at any spin the machine can throw random symbols to the reels, replacing what is there as follows:
In the base game it can throw value, mystery or wild money symbols, normal WILD symbols or instant JACKPOT symbol.

During the respin round it can also throw JACKPOT money symbols.

MONEY RESPIN FEATURE

The MONEY RESPIN feature starts after all win combinations for the base game are paid.
The normal symbols fade away and only the MONEY symbols that triggered the feature remain.
The normal reels are replaced with special reels containing only MONEY symbols and empty spaces.
You start with a number of respins equal to the number of the MONEY symbols that triggered the feature.
All MONEY symbols that hit remain on the screen until the end of the round.
Every MONEY symbol that hits during the round adds one more respin.
The round continues until respins are finished or all positions on the screen are filled with MONEY symbols.
The round is played on a 3x5, 4x5 or 5x5 grid depending if the round was triggered with 3 MONEY symbols on the middle reel. Filling the middle reel with MONEY symbols during the round does not expand the grid.
During the round, at random respins the machine can throw MONEY symbols to the screen in empty positions that will count towards the total win of the round.
Hit and collect 3 JACKPOT money symbols during the respin round to win the JACKPOT BONUS feature.
When a JACKPOT BONUS feature is won it will be played after the current round ends.
When the MONEY RESPIN feature is complete the values of all MONEY symbols are added and the game plays the total amount.

If all positions are filled, the round is retriggered and starts again, with 5 initial respins. Every MONEY symbol hit during retriggered rounds adds one more respin.

JACKPOT BONUS FEATURE

Hit 3 BONUS symbols on reels 2, 3 and 4, collect 3 JACKPOT MONEY symbols during the respin round or hit an instant jackpot from the machine in the base game to trigger the JACKPOT BONUS feature.

In the bonus game pick coins to reveal jackpot names behind them. Match 3 of the same symbol to be awarded the corresponding jackpot.

INSTANT JACKPOT FEATURE

This is the INSTANT JACKPOT symbol. Randomly at any spin the machine can throw an INSTANT JACKPOT symbol to trigger the JACKPOT BONUS feature instantly.

INSTANT MONEY RESPIN FEATURE

Randomly at any spin, the machine can throw 5 or more MONEY symbols of any kind to random positions on the screen to instantly trigger the MONEY RESPIN feature.

MAX WIN

The maximum win amount is limited to 5,100x bet in base game, respin or jackpot bonus. If the total win of any spin including all features or modifiers reaches 5,100x bet the round immediately ends, wins are awarded and all wins above this amount are forfeited.

VOLATILITY ⚡⚡⚡⚡

High volatility games pay out less often on average but the chance to hit big wins in a short time span is higher

Only the highest win is paid per winning combination on the same payline.

When winning on multiple paylines, all wins are added to the total win.

Respin and bonus wins are added to the payline win.

All wins are multiplied by base bet.

All values are expressed as actual wins in coins.

SPACE and ENTER buttons on the keyboard can be used to start and stop the spin.

Malfunction voids all pays and plays.

The theoretical RTP of this game is 96.42%
