This is the WILD symbol it substitutes for all symbols except for BONUS COIN symbols and MONEY symbols.

In the base game, three types of BONUS COIN symbols can appear on the screen:

When the GREEN BONUS COIN hits, it gets collected in the green PROSPERITY chest on top of the screen. Whenever it gets collected it can randomly trigger the CHEST RESPIN feature with a modifier that upgrades the value of up to 3 coins currently on the screen with a random amount, at the end of random respins.

When the RED BONUS COIN hits, it gets collected in the red DOUBLE chest on top of the screen. Whenever it gets collected it can randomly trigger the CHEST RESPIN feature played on two grids of 5x3 symbols.

When the PURPLE BONUS COIN hits, it gets collected in the purple LONGEVITY chest on top of the screen. Whenever it gets collected it can randomly trigger the CHEST RESPIN feature with one extra respin, up to a maximum of 4 respins, which resets every time a new MONEY symbol hits.

The collection happens at the end of the spin and if the CHEST RESPIN feature is triggered one, two or three of the modifiers are triggered randomly. The subsequent CHEST RESPIN round is played with all the modifiers that it was triggered with.

CHEST RESPIN FEATURE

This is the MONEY symbol.

It can appear only during the RESPIN feature.

Whenever it hits, it takes a random value from a pre-defined set.

Possible values are: 0.6x, 0.8x, 1x, 2x, 3x, 4x, 5x, 6x, 8x, 10x, 12x, 14x, 16x, 20x, 30x total bet or the bonus values of MINI (10x total bet), MINOR (20x total bet) or MAJOR (150x total bet).

When the round starts, the normal symbols fade away and only blanks and MONEY symbols are present on the reelstrips.

The round starts with the BONUS COIN symbols that were present on the screen when the feature was triggered, now transformed into MONEY symbols with the same amounts that they had in the base game.

The round starts with 3 respins. All MONEY symbols that hit remain on the screen until the end of the round. Every time at least one MONEY symbol hits, the number of respins is reset to 3. The round continues until respins are finished or all positions on the screen are filled with MONEY symbols.

If the round was randomly triggered with a GREEN BONUS coin, after every respin, there is a chance that up to 3 MONEY symbols currently on the screen get their value upgraded with a random value.

If the round was randomly triggered with a RED BONUS coin, the CHEST RESPIN feature is played on two grids of 5x3 positions. Each grid starts with the BONUS COIN symbols that were present on the screen when the feature was triggered, now transformed into MONEY symbols, with the same amount that they had in the base game.

If the round was randomly triggered with a PURPLE BONUS coin, the CHEST RESPIN feature starts with 4 respins instead of 3 and every MONEY symbol that hits reset the amount of respins back to 4.

The round ends when there are no more respins left or all positions on the screen are filled with MONEY symbols. If all positions are filled with MONEY symbols the GRAND (5000x total bet) is also awarded.

At the end of the round, the values of all MONEY symbols on the screen are added together and paid.

MAX WIN

The maximum win amount is limited to 10,000x bet. If the total win of a CHEST RESPIN feature reaches 10,000x bet the round immediately ends, win is awarded and all remaining respins are forfeited.

BUY CHEST RESPIN FEATURE

The CHEST RESPIN round can be instantly triggered from the base game by buying it.

There are two options to buy:

Pay 50x total bet to trigger the CHEST RESPIN feature with 1, 2 or 3 modifiers hitting randomly on the triggering spin.

Pay 100x total bet to trigger the TRIPLE CHEST RESPIN feature with all 3 possible modifiers guaranteed to hit on the triggering spin.

VOLATILITY

High volatility games pay out less often on average but the chance to hit big wins in a short time span is higher.

All symbols pay from left to right on selected paylines. All wins are multiplied by bet per line.

Respin wins are added to the payline win.

All values are expressed as actual wins in coins.

Only the highest win is paid per line.

When winning on multiple paylines, all wins are added to the total win.

Respin win is awarded to the player after the round completes.

Respin total win in the history contains the whole win of the cycle.
