## TUMBLE FEATURE

The TUMBLE FEATURE means that after every spin, winning combinations are paid and all winning symbols disappear. The remaining symbols fall to the bottom of the screen and the empty positions are replaced with symbols coming from above.

Tumbling will continue until no more winning combinations appear as a result of a tumble. There's no limit to the number of possible tumbles.

All wins are added to the player's balance after all of the tumbles resulted from a base spin have been played.

36 - 3000

This is the WILD symbol. It can hit on all reels during spins and tumbles in both base game and FREE SPINS.

During spins and tumbles, any multiplier that hits is collected in a meter on top of the reel the WILD that was carrying it hit. Every win from clusters is multiplied by the sum of all multipliers on top of the reels that had winning symbols on them, part of the cluster. At the end of all tumbles resulted from a spin, the multipliers are cleared from the top of the reels.
