This is the WILD symbol and substitutes for all symbols.  
It can appear on all reels.

In the base game, whenever a full screen of the same symbol hits all winning combinations are multiplied by a random multiplier of x5, x10, x15 or x25.

## RESPIN FEATURE

Randomly, at any spin, the RESPIN feature can trigger. When this happens, a random paying symbol is selected and the reels spin and stop with only that symbol, WILD symbols if any and blanks.

After this, the reels will respin and if new symbols of the same type or WILD symbols are added to the grid, they stay on the screen and a new respin is triggered.

Respins end either when there are no more symbols of the randomly chosen type hitting after a respin or when the screen is completely filled with the chosen symbol.

At the end of the respin, if the screen is filled with the chosen symbol all winning combinations are multiplied by a random multiplier of x5, x10, x15 or x25.

## MAX WIN

The maximum win amount is limited to 2,500x bet in both base game and respins. If the total win of a RESPIN round reaches 2,500x bet the round immediately ends, win is awarded and all remaining respins are forfeited.

## VOLATILITY ⚡⚡⚡⚡

Medium volatility games pay out steadily and the range of pays varies from low to very high.

All symbols pay from left to right on selected paylines. All wins are multiplied by bet per line.

Respin wins are added to the payline win.

All values are expressed as actual wins in coins.

Only the highest win is paid per line.

When winning on multiple paylines, all wins are added to the total win.

Respin win is awarded to the player after the round completes.

Respin total win in the history contains the whole win of the cycle.
