RANDOM FEATURES

In the base game randomly, at any spin there is a chance that one of the following features will hit:

WILD RESPIN

If 4 or more **WILD** symbols hit, after paying the win the game goes into a free respin mode. The **WILDS** remain on the screen and move to a random position while the rest of the symbols respin.

The game pays all winning combinations after each respin.
If more **WILDS** hit after the respin, one more respin is awarded.
The feature ends when no more **WILDS** hit after a respin.

SHIFTING STACKED WILDS

This is the **SHIFTING STACKED WILD** symbol.
It appears on reels 2, 3 and 4.
The **SHIFTING STACKED WILD** can hit randomly.
When the spin stops the **SHIFTING STACKED WILDS** are brought fully into the screen to cover all position on their reel. For each position moved a multiplier is increased by 1x for each **SHIFTING STACKED WILD**.
After all are moved fully into the screen, winning combinations are paid, multiplied by the sum of all multipliers.

GUARANTEED WIN

Randomly in a spin that results in no win the Kraken can come into the screen and change the symbols to an outcome of 20x to 60x total bet win.
Randomly after a spin 3 **BONUS** symbols can appear on the screen as the result of an explosion awarding the **FREE SPINS** feature.

The player is presented with 16 boxes each containing one of the combinations.

At the start of the feature, a random box is selected and removed from the pool but its result is not revealed.

The player can open this box, reveal the result and play that number of free spins with that multiplier or reject this offer and instead remove chests and combinations from the pool manually, in groups of 4, 4, 3 and 3 picks and take a new offer based on the average of the remaining chests between each group.

After every block of picks, a new offer is made that is equal to the average of the remaining combinations of free spins and multiplier, rounded down. The player can accept and start the feature with the offered number of free spins and multiplier or reject again and do one more block of picks.

This continues until only one chest remains unpicked. When that happens the player is made an offer to either open the first randomly awarded chest or open the remaining one. After this, the round will start with the number of free spins and multiplier awarded by his choice.

During the FREE SPINS round, any win is multiplied by the multiplier won in the mini bonus game.

In the FREE SPINS feature 40 paylines are in play.

Any WILD symbol that hits during the round remains on the screen until the end of the round, moving to a random position after each spin. If a GOLDEN WILD symbol hits, it increases the multiplier for the current round by 1x.

The feature cannot be retrIGGERED.

Special reels are in play during the feature.

MAX WIN

The maximum win amount is limited to 5,000x bet. If the total win of a round reaches 5,000x bet the round immediately ends, win is awarded and all remaining features are forfeited.

ANTE BET

The player has the option to select the bet multiplier. Depending on the selected bet, the game behaves differently. The possible values are:

Bet multiplier 25x - the chance to win the free spins feature naturally is higher.

The BUY FREE SPINS feature is disabled.

Bet multiplier 20x - Normal play.

BUY FREE SPINS

The FREE SPINS round can be instantly triggered from the base game by buying it.

There are two options to buy the FREE SPINS:

Pay 100x total bet to trigger the STANDARD FREE SPINS feature with 3 to 5 BONUS symbols randomly.

Pay 250x total bet to trigger the VIP FREE SPINS feature with 5 BONUS symbols guaranteed.

VOLATILITY

High volatility games pay out less often on average but the chance to hit big wins in a short time span is higher.

All symbols pay from left to right on selected paylines.

Free spins win is added to the payline win.

All wins are multiplied by bet per line.

All values are expressed as actual wins in coins.

Only the highest win is paid per line.

When winning on multiple paylines, all wins are added to the total win.

Free spins round win is awarded to the player after the round completes.

Free spins round total win in the history contains the whole win of the cycle.

The RTP of the game is based on the best strategy of always rejecting the offer given.
