This is the WILD symbol and substitutes for all symbols except for FIREFLY symbols.
It can appear on reels 2, 3, 4 and 5.

Three types of FIREFLY symbols can appear on the screen:

When the PURPLE, RED or GREEN FIREFLY symbols hit, they get collected by the purple, red or green toad on top of the screen. Whenever that happens they can randomly trigger the FREE SPINS feature with purple, red or green modifier activated randomly.

The collection happens at the end of the spin and if the FREE SPINS feature is triggered, one, two or three of the modifiers are triggered randomly. The subsequent FREE SPINS round is played with all the modifiers that it was triggered with activated.

This is the GOLDEN FIREFLY symbol.
It can appear only during the FREE SPINS feature if the feature has the red modifier active and it replaces the PURPLE FIREFLY if the round has also the purple modifier active.

PURPLE MODIFIER

With this modifier, every PURPLE FIREFLY symbol that hits reveals a random money award of 1x or 10x total bet, or +1 or +2 additional free spins. The money award is collected and additional free spins are added to the total amount of free spins left for the round.

When this modifier is active also a random multiplier x2, x3 or x5 can be revealed at any spin and applies to all line wins on that spin.

RED MODIFIER

With this modifier, all FIREFLIES are GOLDEN FIREFLY symbols and when they hit, they reveal a random money award of 1x or 10x total bet, or a random letter of a certain color, found in the names of the fixed Jackpots available in the game, or if the purple modifier is also active in this round it can reveal also +1 or +2 free spins randomly. The fixed Jackpots are: MINI, 10x total bet; MINOR, 30x total bet; MAJOR, 350x total bet; GRAND, 3500x total bet. When during the round the words MINI, MINOR, MAJOR or GRAND are fully formed from letters revealed by GOLDEN FIREFLIES, the Jackpot associated with the fully formed word is awarded.

GREEN MODIFIER

With this modifier, during the round, the amount of lines available for winning combinations increases to 100 and the grid of symbols increases to 5x6.

When this modifier is active also any WILD symbol that hits triggers a nudge of the reel it is on until the reel is fully filled with WILDS.
