**Live Roulette** is played by spinning a small ball on a round wheel with thirty-seven number pockets. When the ball comes to rest in one of them, the winning number is defined.

**The objective of the game** is to predict the number on which the ball will land by placing one or more bets that cover that particular number. You win if you have placed a bet that covers that particular number. The amount of the payout depends on the type of bet placed.

## Bets

You can place many kinds of bets on the Roulette table. Each bet can cover a single number or a certain range of numbers, and each type has its own payout odds.

Bets placed on the numbered spaces or on the lines between them are called **Inside bets**, while the ones placed on the special boxes below and to the sides of the board are called **Outside bets**. The numbers included if you bet on that betting field are highlighted.

### Inside Bets

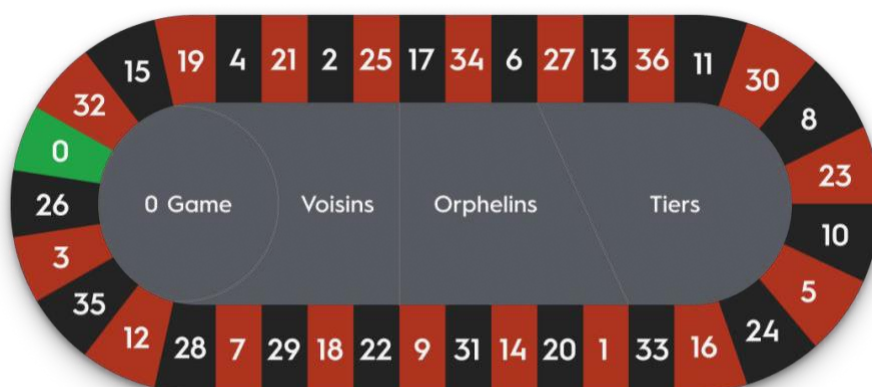

- **Straight Up Bet** — place your chips directly on any single number (including zero).
- **Split Bet** — place your chips on the line between any two numbers (e.g., split 0/2, 16/17).
- **Street Bet** — place your chips at the lower end of any row of numbers on the Outside Bets side. A Street Bet covers three numbers (e.g., Street 7, 8, 9). Bets placed at the junctions of 0, 1 and 2 or 0, 2 and 3 are also accepted as Street Bets.
- **Corner Bet** — place your chips at the cross lines where four numbers meet. All four numbers are covered (e.g., Corner 5, 6, 8, 9). A bet placed on 0, 1, 2, 3 (the lower junction of 0 and 1) is also considered a Corner Bet.
- **Six Line Bet** — place your chips on the T-shaped crossing lines between two adjoining streets. A Six-Line bet covers all the numbers in both rows, for a total of six numbers (e.g., Six Line 4, 5, 6, 7, 8, 9).

### Outside Bets

- **Column Bet** — place your chips in one of the boxes marked “2:1” at the end of the columns to cover all twelve numbers in that column. The zero is not covered by any of the columns.
- **Dozen Bet** — place your chips in one of the three boxes marked “1st 12”, “2nd 12”, or “3rd 12” to cover the twelve numbers in the sequence 1 to 36. The zero is not covered by any of the dozens.
- **Even Chances** — place your chips in one of these six boxes to cover the 18 numbers on the board correspondingly: Red/Black, Even/Odd, Low numbers (1-18), or High numbers (19-36). The zero is not covered by any of these boxes.

## Roulette Valid Spin Rule

A winning number is valid only when the spin is deemed valid. A valid spin is defined as follows:

**The Roulette ball must be spun in the direction opposite to the rotation of the wheel and must complete at least three complete revolutions counted from the point where the ball was launched around the track of the wheel before dropping to constitute a valid spin.**

If the spin is defined as invalid, this situation is called a “**No Spin**”.

Situations where a “No Spin” is declared:

- The ball made fewer than 3 complete revolutions.
- The ball was spun in the same rotation direction as the wheel.
- The wheel stopped rotating during the spin.
- A stuck ball, either on a fret, ball stop or number track.
- The ball jumped out of the wheel (ball-out).
- The ball was fumbled/dropped before spinning.
- Any foreign object entered the wheel during the spin.

In the event of a “No Spin”, the re-spin of the ball will be done based on our standard operating procedures.

Your bets will remain in play until a valid spin is made.

## Game Inconveniences

If there is an error in the game, system, game procedure or transaction activity, the game round will be temporarily paused, and the Shift manager immediately notified. You and other players will be informed by an on-screen notification that the issue is being investigated.

If the error can be immediately resolved, the game round will continue as usual. If immediate resolution is not possible, the game round will be cancelled, and initial bets will be refunded to all players who participated in the game round.

A maximum of 95% of the numbers can be covered with bets in a spin. If this limit is exceeded, all your bets are rejected for that spin.

If you wish to discuss any game related issues, please contact Live Support, providing your **Game ID number**.
